Professional Summary

I am an IT engineer interested in leveraging my skills for building scalable and robust applications, coding and work towards attaining professional and personal goals.

Education

Bachelor of Technology in Information Technology Engineering, Marwadi University (NAAC A+) 2022 - 2026
*CGPA **8.60***

Matriculation OSEM Pathak School, Rajkot 2011 - 2020
Percentage Performance 82%

Technical Skills

- Programming Languages: JAVA | Scripting Languages: JavaScript, HTML, CSS | Databases : MySQL, MongoDB

INTERNSHIP EXPERIENCE

TSS (Tanna Software Services) Rajkot, Gujarat
Learning about Machine Learning & AI Jan 2025 – Jul 2025
I did internship at TSS and work on the Machine Learning projects and gain the knowledge about how to work artificial intelligence. In this I learned python and its libraries like pandas, numpy, pytorch and learn frameworks like streamlit and Flask after this internship I have curiosity to learn more about artificial intelligence.

PROJECT WORK

Real-Time Object Recognize System
Train a pretrain model on custom dataset and recognize the things using webcam
- Train the pretrain yolo model on custom dataset with OpenCV library and tuning the model and recognize the things through the webcam

Dynamic Resume Website
Developed interactive interface to make resume
- Make a website with the admin panel in which user is login it-self and fill his details which he will see on his resume.
- Technology used: HTML , CSS , Boostrap, JavaScript , PHP, Mysql

Diseases Prediction using Symptoms
Train a machine learning model which predict the diseases based on servernity and recommend the necessary medicines
- Train a machine learning model using random-forest and Neural network MLPClassifier algorithms.
- And make user interface using streamlit and give choice to user to train own model with different algorithms and save it on hugging face.

CERTIFICATION

Database Programming with SQL Oracle
To learn beginner level to Advance level SQL

Python 101 for Data Science IBM
To learn beginner level to Intermediate Python

WORKSHOPS / SEMINARS

Hack the Mountains (HTM) Marwadi University, Rajkot, Gujarat
State – Level Hackathon Jul 2024 – Dec 2024
- Develop object recognization system which detect the object in real time through webcam in that we use python and YOLO and OpenCV library for detection.

SOFT SKILLS

- Team Work | Communication | Brain Stroming | Creativity
